

On-Counter

The Future Of Blending Is Here.

The new Vita-Mix® Touch & Go™ Blending Station is programmed to mix the most popular drinks the same way, unattended, every time. Even heavy-duty smoothie mixtures, containing high percentages of ice and frozen fruit, and notoriously hard-to-mix ice cream drinks turn out smooth and creamy. Power, one touch operation and an unparalleled sound reduction chamber make this machine perfect for any restaurant, bar or café.

FOODSERVICE

Blending has never been easier!

One-Touch Operation

- Buttons one to six correspond to programmed electronic mixing techniques.
- Each program combines the right speed and timing to turn out perfectly blended, homogenized drinks with no ice particles.
- Count-down timer lets you see seconds remaining.
- Drinks are perfectly blended while you do other tasks.
- No need to stir or shake mixture.

Frozen Drinks

Frozen Coffee and Tea Drinks

Thick, Rich Shakes and Malts

Specialty Ice Cream Drinks

Fresh Fruit Smoothies

Extra Thick and Frozen Smoothies

An optional hood switch for the sound reduction chamber is available for both the In- and On-Counter Models.

When Applicable

Redesigned Sound Reduction Chamber

- Quieter than the sound level of normal conversation.
- Impact-resistant, hinged, molded polycarbonate cover removes completely for easy cleaning.

Advanced Engineering

- Display features a resettable and running-total drink counter.
- Built-in thermal protection.
- Count-down timer lets you see seconds remaining.

Variable Speed Operation

- Variable low or high pulse adds versatility to non-programmed blending.
- Use low pulse to stir and refresh drinks.
- Use high pulse to blend without puréeing or homogenizing.

Additional Features:

- Can be used as a variable speed blender.
- Displays percentage of power being used from 7-100%, as well as elapsed time.
- Remembers your last blending speed.
